

MINT TRMS SELECTED BY EMPIRE AIRLINES FOR FLIGHT CREW AND GROUND STAFF TRAINING MANAGEMENT!

Kiel, 9th September 2015 - MINT Software Systems has announced the celebration of a service agreement with the US passenger and cargo carrier Empire Airlines. The airline based in Hayden, Idaho, USA has selected the MINT Training and Resource Management System “MINT TRMS” as new solution for training scheduling and records management for their cockpit and cabin personnel as well as dispatchers and aircraft mechanics.

“With Empire Airlines we are proudly welcoming a new US based customer to the growing MINT user community”, says Christian Hollmann, VP of MINT Software Systems. “Empire Airlines have selected MINT particularly for its powerful training scheduling and records management capabilities. Additionally, the expertise implementing our system into operative training branches at more than 40 airlines all over the world has driven their decision. Our software will effectively enhance the future training operations at Empire and support the continuous growth of their business”, he explains.

MINT TRMS allows customers to optimize their training workflows and speed up the training planning and performance with its outstanding scheduling and electronic data gathering and analysis capabilities. This unique platform helps airlines all over the globe to significantly enhance their training efficiency and the day to day life of all crews and instructors with the instant online access to their training schedules, electronic forms, learning material and other training related data in the integrated and multifunctional web portal.

“We were looking for the best training management solution for airlines available on the market and with MINT TRMS we have found it”, Randy Lanfell, Vice President Operations at Empire Airlines. “Our new MINT training management software will improve the effectiveness of the entire training administration and with the new MINT WebPortal, we will also streamline the communication between our training planners, instructors and all other staff”.

The agreement signed by Empire Airlines and MINT Software Systems includes the delivery of the SaaS version of MINT TRMS for training scheduling, record management, training data collection and analysis for all flight crew at Empire Airlines.

About MINT Software Systems

MINT Software Systems, headquartered in Kiel, Germany, with representations in Sharjah (UAE), Bucaramanga, (Colombia), and Orlando, (USA) creates innovative training and learning management solutions used by major aviation players. MINT's SaaS and onsite solutions employing latest software technology, allowing efficient records and training scheduling for crew, ground and maintenance staff and guarantee trouble-free regulatory compliance with the AQP/ATQP programs of authorities like the FAA and EASA.

About Empire Airlines

Empire Airlines is an Idaho based company with over 350 employees providing air cargo services for FedEx in 15 states and inter-island passenger airline services for Hawaiian Airlines in Hawaii. Empire also operates two other divisions: Empire Aerospace providing heavy maintenance and modifications to the industry and Empire Unmanned which provides unmanned aerial surveillance and analysis for agriculture and related industries.
