

MINT SOFTWARE SYSTEMS WINS KLM AIRLINES AS NEW CUSTOMER!

German software provider MINT Software Systems has signed a service agreement with KLM Royal Dutch Airlines for the delivery of the Training Management System MINT TRMS to manage all training and ATQP related data for all flying crew.

Kiel, 31st August 2015 - MINT Software Systems has announced the celebration of a service agreement with the renowned Dutch passenger airline KLM Airlines. The airline will implement MINT TRMS for training data and records management and ATQP data analysis to further improve the quality and performance of their flight crew training.

“We are extremely proud to win KLM Airlines as our newest customer”, says Frank Vieira Hugger, Director of Sales and Marketing at MINT Software Systems. Wolfgang Becker, CEO of MINT Middle East agrees: “KLM Airlines have evaluated a number of solutions available on the market. Our proven training and records management system MINT TRMS has proven to be the perfect fit to their demanding requirements. We are very happy about this decision, because it is the result of our continuous hard work, to provide innovative and latest software technology to effectively manage the highly complex training operations of major airline customers like KLM”.

MINT TRMS will allow customers to optimize their training workflows and speed up the training data collection with its outstanding electronic data gathering capabilities. This unique platform will help customers to significantly enhance their training efficiency and the day to day life of all crews and instructors with the instant online access to electronic grade sheets, forms and other training related data in the integrated and multifunctional web portal.

The agreement signed by KLM Airlines and MINT Software Systems includes the delivery of the MINT software MINT TRMS for record management, training data collection and analysis which KLM Airlines intends to implement across all partner airlines within the Group.

About MINT Software Systems

MINT Software Systems, headquartered in Kiel, Germany, with representations in Sharjah (UAE), South America, and the USA creates innovative training and learning management solutions used by major aviation players. MINT's SaaS and onsite solutions employing latest software technology, allowing efficient records and training scheduling for crew, ground and maintenance staff and guarantee trouble-free regulatory compliance with the AQP/ATQP programs of authorities like the FAA and EASA.

About KLM

KLM Royal Dutch Airlines was founded on October 7 in 1919, making it the world's oldest airline operating under its original name. In 2004, Air France and KLM merged to form AIR FRANCE KLM. The merger produced the strongest European airline group based on two powerful brands and hubs – Amsterdam Airport Schiphol and Paris Charles de Gaulle. Retaining its own identity, the group focuses on three core businesses: passenger transport, cargo and aircraft maintenance. In the Netherlands, KLM comprises the core of the KLM Group, which further includes KLM Cityhopper, transavia.com and Martinair. KLM serves all its 139 destinations using a modern fleet and employs over 32,000 people around the world. KLM is a leader in the airline industry, offering reliable operations and customer-oriented products resulting from its policy of customer centricity, innovation and efficiency. KLM is a member of the global SkyTeam airline alliance, offering customers an extensive worldwide network. The KLM network connects the Netherlands to every important economic region in the world and, as such, serves as a powerful driver for the economy.
